Abstract: In order to deepen the reform of teacher education from a global view, review the development of teacher education in China, and look into the future of teacher education in the world, the Teacher Education Symposium and 3rd Annual Conference on East-West Reciprocal Learning in Education were jointly hosted by Southwest University and the SSHRC Partnership Grant Project: Canada-China Reciprocal Learning on the 110th anniversary celebration of Southwest University China from April 17-19, 2016. Scholars at home and abroad discussed teacher education and school education from a global view. On the one hand, they reviewed the development and trend of teacher education in China, shared the experiences of teacher education reform of some prestigious universities in China, and explored to set the mechanism for global teacher education. On the other hand, they displayed the outcomes of Canada-China Reciprocal Learning Project in such fields as school education, science education, math education, language and culture with the purpose of enhancing reciprocal cooperation and promoting common development.

Key words: globalization; teacher education; school education; reciprocal learning; canada
